Skills

Artistic Practice: Painting, drawing, photography, printmaking, ceramics, digital illustration, digital art, graphic design, typography, animation, interactive media.

Design & Media Tools: Adobe Photoshop, Adobe Lightroom, Procreate.

Data & Programming: Python (NumPy, pandas, Matplotlib), Java, LaTeX, advanced Excel (VBA, modeling), creative web development, data visualization.

Research & Project Development: Archival and visual research, artist interviews, material and glaze testing, scientific visualization, interaction design, project management.

Interpersonal: Collaboration, peer teaching, cross-disciplinary communication, group facilitation, team building, team management.

Languages: Bengali (native), English (full proficiency), Hindi (conversational), Urdu.

Education

Gettysburg College Expected May 2027
Bachelor of Arts in Mathematics and Art Studio; Minor in Data Science | Gettysburg, PA
Honor: Presidential Scholar.

Art Coursework: Drawing, Printmaking, Ceramics, Digital Media, Intro to Photography, Intermediate Photography, Painting, Intermediate Painting.

Mathematics, Data Science & Other Coursework: Data Science Programming, Applied Data Science, Visual Communication of Data, Spreadsheet Modelling for Management, Multivariable Calculus, Linear Algebra, Abstract Mathematics, Probability and Statistics, Complex Analysis, Microeconomics, Macroeconomics.

Interdisciplinary Projects

Planet Walk & Observatory Mural June–July 2026
Kolbe Summer Research Fellow | Gettysburg College

- Developed an art-and-astronomy project over eight weeks, integrating a scientifically scaled campus planet walk, ceramic planetary markers, scientific visualization, digital illustration, an Observatory mural, and an interactive web companion.
- Designed an 11-station route linking the campus Planetarium and Observatory; mapped the route and evaluated marker locations for visibility, accessibility, and site conditions.
- Developed carved ceramic planetary markers and produced 66 material and glaze test tiles to evaluate color, texture, and finish.
- Co-managed a $500 project budget and collaborated with physics mentor Dr. Ryan E. Johnson and received ceramics guidance from Professor Tina Gebhart; consulted mural specialist Sarah Jacobs, MFA, on outdoor durability, materials, and installation.
- Adapted the mural from direct painting to four digitally illustrated panels printed on vinyl for the Observatory's metal wall, combining planetary imagery with mythological figures.
- Built a companion website featuring a campus map, planet information pages, and a station-by-station walk tracker for educational outreach and visitor engagement.

Project status: Route and documentation complete; mural printed; website live. Ceramic markers awaiting glazing and firing; physical installation pending.

A Digital Moving Mountain June–July 2025
Art History Summer Digital Fellow | Gettysburg College

- Conducted archival and visual research into Dr. Gan Yu's *Wall Street* series, including the participatory painting *A Moving Mountain*, to investigate how participation, context, and artistic authorship could carry into a digital environment.
- Participated in a June 2, 2025 artist interview with Gan Yu, fellow student researcher Westley Rathbun, Professor Yan Sun, and gallery director Sarah Kate Gillespie; investigated requirements for the painting's digital extension.
- Translated research into *A Digital Moving Mountain*, an interactive platform preserving images of the original painted panels while allowing visitors to contribute typed and handwritten responses at specific locations.
- Developed the platform's information architecture and interaction design to connect the artwork, artist biography, research context, and visitor participation.

A Digital Moving Mountain (continued)

- Presented the digital extension as part of *Footprints Across the Ocean: The Art of Gan Yu* at the Schmucker Art Gallery, September 3–December 6, 2025.
- Authored an exhibition catalogue essay examining the research, technical methodology, and design decisions behind the digital extension, with guidance from faculty and gallery mentors.

Research

Women in the Art World: Wage & Representation Analysis

Data Visualization Course Project | Python (pandas, Matplotlib)

- Analyzed DataUSA wage data for artists and related workers from 2014–2022; calculated women's average earnings at 64–68% of men's across the dataset, showing that the relative gap persisted despite increases in both groups' wages.
- Synthesized published findings from the National Museum of Women in the Arts, the Burns Halperin Report, a *PLOS One* museum-collections study, and the Freelands Foundation to contextualize gender disparities across the art world.
- Compared how line charts, paired bars, and calculated wage ratios communicate inequality; documented the distinction between comparing annual earnings and directly measuring the wage gap. Code and data.

Club Statistics & Historical World Cup Squad Selection

Data Science Course Final Project | Python, pandas, scikit-learn, Seaborn, Matplotlib

- Completed before the 2026 FIFA World Cup, matching 2023–24 statistics from Europe's five major leagues with historical World Cup squad records from 1930–2022, ending with the 2022 tournament; labels identify prior squad inclusion rather than predict 2026 selection.
- Cleaned and matched player records by name, retaining 2,847 players and 30 numerical features; trained logistic regression and random forest classifiers with a stratified 80/20 training–test split.
- Evaluated confusion matrices and recall alongside accuracy: approximately 82% accuracy fell below an always-not-selected baseline, while the models identified only 6 and 8 of 98 previously selected players in the test set.
- Examined feature correlations and random-forest importance; documented class imbalance, name-matching limitations, and the timing mismatch between club statistics and historical squad labels. Notebook and report.

Teaching & Professional Experience

Photography & Digital Media Peer Learning Associate Sept 2026–Present

Gettysburg College

- Support students in digital media and photography courses through in-class assistance, weekly studio hours, and individual and group tutorials.
- Demonstrate digital imaging, camera, and course-specific workflows; troubleshoot technical challenges and explain techniques through verbal, written, and visual instruction.
- Provide peer mentorship, assist with course logistics, and support an inclusive, collaborative studio environment while maintaining student confidentiality.

Program Coordinator Aug 2024–Present

Office of Campus Life | Gettysburg College

- Organize campus-wide social and cultural events, including the International Food Festival, supporting intercultural exchange, student participation, and community engagement.
- Lead teams and collaborate with diverse student groups to develop programming that strengthens belonging and an inclusive campus community.

Design & Social Media Chair Jan 2026–Present

Center for Religious and Spiritual Life | Gettysburg College

- Lead visual identity and social media; develop cohesive digital and print promotional materials supporting interfaith dialogue, cultural diversity, and inclusive campus programming.

Artistic Practice & Cultural Engagement

Volunteer Photography & Visual Communication
The Gettysburgian & Campus Cultural Activities | Gettysburg College

- Contributed as a volunteer photographer for *The Gettysburgian*; created visual content documenting student exhibitions, artistic activities, and campus cultural events.

Visual Art, Performing Arts & Cultural Activities 2015–2021
Cumilla Cadet College

- Created more than 100 artworks for competitions, wall magazines, exhibitions, and cultural celebrations.
- Participated in stage drama productions, including a team championship.

Leadership, Volunteering & Community Engagement

Community Advisor 2026–Present
Gettysburg College

- Support residential community development, promote an inclusive living environment, and facilitate student engagement and community-building initiatives.

Community GIGs (Give Ideas to Gettysburg) 2024–Present
Gettysburg College

- Contribute to a multicultural cookbook initiative and interactive food-related activities promoting cultural exchange, food justice, and environmental sustainability.

Group Facilitation Fellow 2023
Garthwait Leadership Center | Gettysburg College

- Facilitated leadership and community-building workshops emphasizing collaborative problem-solving, communication, inclusivity, and cultural understanding.

Class House Prefect & Peer Tutor 2015–2020
Cumilla Cadet College

- Served as Class House Prefect for five years, coordinating student activities and supporting community development.
- Tutored more than 20 students in mathematics and science.

Environmental Volunteer 2015–2020
Cleaning & Development Society | Cumilla Cadet College

- Led a team of 15 volunteers in public-space cleanups, removing more than 500 pounds of waste.
- Helped coordinate a school gardening initiative involving more than 100 students and promoted environmental awareness.

Honors & Awards

- **Presidential Scholar**, Gettysburg College.
- **Best Designer and Creative Award**, Cumilla Cadet College, 2020–2021.
- **Student photography recognition**, Cumilla Cadet College, 2020.
- **Six first-place finishes**, inter-house art competitions, Cumilla Cadet College, during 2015–2021.
- **Seven Best Artist awards**, special-occasion art competitions, Cumilla Cadet College, during 2015–2021.
- **Two runner-up distinctions**, essay and calligraphy competitions, Cumilla Cadet College, during 2015–2021.

Sports & Athletics

- **Football (Soccer), Cumilla Cadet College:** Participated in four inter-house competitions, won two team championships, and received the Best Defender award in the college football league.
- **Table Tennis:** Three-time champion across singles and doubles categories in inter-house indoor sports competitions.
- **Cricket:** Won an inter-house cricket championship.
- **Athletics:** Placed among the top 17 of approximately 300 participants in a cross-country running competition (2017); won two obstacle-course championships and finished runner-up once; received recognition in discus throwing.
